## 1.0 PRODUCT DESCRIPTION

OA4400 (1RU) series is a low noise, high performance, FTTP high power, multi-ports optical amplifier with gain spectrum band within 1540~1563nm. Each output port for optical amplifier has built-in well-performed CWDM. Every external up-link optical port of optical amplifier can connect with OLT PON port very conveniently. Each 1550nm (CATV)'s output optical port multiplex 1310/1490nm's data stream, in order to reduce the quantity of the component and improve the index and reliability of the system.

OA4400 optical amplifier can be compatible with any FTTx PON Technology. It offers a flexible and low-cost solution for three-network integration and Fiber to the Home.

OA4400 has extremely low noise figure, the entire unit adopts twin-stage amplification, and the pre-amplifier adopts low noise EDFA, output cascade adopts high power EYDFA. When input optical power  $P_{in}=0\text{dBm}$ , the noise figure of unit is: Typ  $\leqslant 4.5\text{dB}$ , Max  $\leqslant 5.5\text{dB}$  Unlike other kind of product which need high optical power input to maintain lower noise figure.

OA4400 optical amplifier adopts the world's top class pump laser and active optical fiber. Perfect APC, ACC and ATC control, excellent design in the ventilation and heat-dissipation ensure the long life and high reliable work of pump laser. RS232 and RJ45 offer serial commutation and SNMP network management port.

OA4400 LCD at the front panel offers the work index of all equipment and warning alarms. The laser will switch off automatically if optical power is missing, which offers security protection for the laser. All the optical port of optical amplifier can be installed in the front panel or back panel.

OA4400 optional two-way optical input (built-in 2x1 optical switch), can be used for self-healing ring network or redundant backup network.

OA4400 with carrier-class reliability and network security management, high quality, high reliability and excellent cost performance and is ideal for system integrators and system operator.

OA4400 optical amplifier: 19" 1RU chassis, total output power up to 37dBm (5000mW), use LC/APC, offers 16 optical outputs at most, 16pcs uplink optical ports.
