

Industry-Standard Stream Player Software

- ❑ Integrated (P)SI viewer, looping
- ❑ Full control of DekTec modulators
- ❑ Remote control for automation

FEATURES

- Build yourself a low-cost, versatile stream player using a standard- or industrial PC, a DekTec output adapter and *StreamXpress*® payout software
- Streams DTV signals from file: baseband (ASI, SDI), modulated (RF) or TS-over-IP
- Integrated (P)SI viewer
- Integrated test-signal generator including 4K UHD payout
- Advanced support for several modulation standards, including DAB+, DVB-S2X, DVB-T2 and ISDB-S/T
- Play-out at a higher rate by null-packet stuffing with PCR correction
- Endless play with optional automatic correction of continuity-counter and PCR/PTS/DTS fields
- Automatic computation of transport rate
- Reproducible injection of errors in the transport stream with adjustable error rate

APPLICATIONS

- Universal test- stream generator for feeding set-top boxes, digital TVs, digital-video processing equipment, etc.
- Demos at trade shows, in stores, etc.
- Test-signal generator for ATE environments
