Patrol Device　T-0778P

Description

Patrol device is suitable for prison, factory, warehouse, large shopping mall, community, school and other scene applications.

Features

* The panel is a brushed design, which has the characteristics of anti-fall, anti-prying, anti-needle, rugged and durable.

* Supports connection with the intercom help panel terminal of the IP broadcast system, and the terminal provides DC 3.3V power supply.

* Supports scheduled patrol tasks on the IP server. Pressing the button on this device will allow the server to receive instructions, and in the patrol record, you can see which terminal has completed the patrol task.

* Supports to customize the flashing time of the indicator on the IP server 0-30s.

Specification

Model	T-0778P
Communication Interface	Industry standard terminal blocks
Communication Distance	≤20m
Power Consumption	≤0.5W
Operating Temperature	—20℃～+50℃
Environment Humidity	20%～80%(relative humidity,no condensation)
Installation	Standard 86 back box
Power Supply	DC 3.3V（provided by the connection terminal）
Dimension(L*W*D)mm	90.5×90.5×27.5mm
Weight	0.6kg
